

Home prices are up. Now's the time to refinance, lock in profits, and protect your equity with an Equity Protection Mortgage

Well done! You made a smart decision to purchase a home, and that home that has increased in value. But, as we all know, what goes up must come down. And up. And down again. So now is the best time to lock in your gains with a +Plus Mortgage Reboot. It's a refinance, but so much more.

Quite simply, if the value of your home goes down in the future, and you need to sell for any reason, the money you've received at closing is protected. So you can go on that dream vacation, send your kids to college, or fix up that 1960s bathroom with the pink tub, all with peace-of-mind.*

Here's how it works

David Bartels

Sr. Mortgage Professional
